

# Tajikistan's Social Network for Civil Society Organizations

www.ngo.tj is an online, CSO-oriented platform developed by EFCA-Tajikistan as part of a project funded by the Embassy of the Kingdom of the Netherlands in Kazakhstan.

Recent trends in national legislation have created challenges for CSOs operating in Tajikistan. In order to respond to the needs of citizens, CSOs must improve their strategic thinking, sharpen their skills, and better acquaint themselves with legal realities to more effectively engage the government and push for meaningful policy change. www.ngo.tj was created in response to these needs. Empowering CSOs with the necessary skills and capabilities to participate in decision-making processes will foster partnerships between governments and public organizations, resulting in more effective service delivery and policy-making.

## RESOURCE CENTER

Access information about where to find grants, an informational library, current legislation, educational materials, and video from trainings and webinars.

## SOCIAL NETWORK

Exchange experiences, support common projects, receive legal information, and create new partnerships for the development of public NGOs.

## WORK SPACE

Store your documents in one safe place online, to ensure they are always at your fingertips; advertise and promote your social organization free of charge.
